PROJECTS

- **Cafe Management System** Feb 2022 - June 2022
 - Developed an Offline Cafe Management App using Java, Swing and MySQL.
 - The objective of this project is to efficiently manage the Customer and Menu information and their details to satisfy the needs of both the employees and the administrator.
 - This system will help to manage and run the café shop systematically. In this management system, we provide an app that can be used by cafe's employee to take order, so that owner of shop can evaluate the whole system.
- **Online Interiors Shopping System** Nov 2021 - Feb 2022
 - Developed an Online Interiors Shopping System serving as both client and admin interface using HTML, CSS, JavaScript, Bootstrap, PHP and MySQL.
 - The objective of this project is to make a website to allow the customers to purchase items from an existing shop.
 - Booking system is very much effective and maintains only one data so that there is no duplication of data.
